

SECTION 19: COMPLIANCE WITH RECALL NOTICES

Subject vehicles included in either a voluntary emission recall, or a remedial plan determination pursuant to section 207 of the CAAA requires compliance with a recall notice by having appropriate repairs made prior to inspection. When data is made available by the EPA, any necessary notification of vehicle recall non-compliance is provided through electronic and other means. The administrative authority ensures compliance with the EPA I/M recall rules, which are maintained at www.deq.louisiana.gov.
